

National Seminar 2019-2020

NATIONAL SEMINAR is a flagship event of the seminar cell wherein some of the prominent Industry stakeholders along with the managers express their views, insights and experiences through a panel discussion. The event aims at enabling the students with a prospect of their likely future and inculcating values in them to tackle the practical problems with efficiency.

The theme for National Seminar 2020 is "Confluence of Insights: Industry 5.0" promises to usher in an era where automated technology and humans ultimately can work side-by-side to increase efficiency and precision. Industry 5.0 is necessary due to consumers high-demand of individualization in the products they buy, meaning they prefer a degree of "hands-on" personalization and customization with their products.

Industry 5.0 is future, but already penetrating trend of change processes directing towards closer cooperation between man and machine, and systematic prevention of waste and wasting including industrial up cycling. Industry 5.0 priority is to utilize efficiently workforce of machines and people, in synergy environment. It goes back from a virtual environment to the real one. Industry 5.0 values life standard, creativity and high-quality custom made products. Despite the fact of its complexity, Industry 5.0 is based on simple but efficient tools which are 6R Methodology and L.E.D. principles. Three things need to be remembered about Industry 5.0: Industry 5.0 is about humans and not robots, it is meant to increase human efficiency and productivity and it is inevitable. Projects realized in line with Industry 5.0 add industrial upcycling proposition confirms effect to many areas, most notably
